

EDUCATION FUND · KARAMOJA, UGANDA

Turning every page into a new beginning.

We fund education grants, school supplies and training for single mothers and vulnerable children, especially girls, so education stays an open door rather than a closed book.

Who we are

In Karamoja, Uganda's poorest region, many mothers raise their children alone and many girls are married off before they finish school. Friends led by Francis Musiime started The Open Book Project so they get the education they deserve. One grant, one family, one open book at a time.

A private endeavour, not a charity

Francis began this work with his own funds and now invites well-wishers to join in. Every donation goes to education.

What your donation funds

Learning support for children

Textbooks, laptops and tutoring.

Vocational grants for mothers

College, training and certification fees.

Community and mentorship

Guidance and practical help for families.
